Monico, Inc. Recognized for Revenue Growth for a Second Year

SPRING, TX, November 8, 2011 - *Monico Inc. has again been awarded the Aggie 100 award by the Texas A&M Center for New Ventures and Entrepreneurship, marking a second year of record growth.*

Last Friday, Karen and Doyle Taylor and Steve Ransom accepted an Aggie 100 award recognizing Monico, Inc., as one of the fastest growing Aggie owned or managed companies worldwide. This marks the second year Monico has received this award, meant to recognize business success through job creation, product acceptance and entrepreneurial vision.

The Aggie 100 Program was created by the Mays Business School's Center for New Ventures and Entrepreneurship as a unique way for Texas A&M University to demonstrate its pride in the accomplishments of former students. At a luncheon on Friday the 100 Aggie-owned or managed companies with the highest compounded annual revenue growth from 2008 to 2010 were recognized at a formal luncheon on the Texas A&M University campus. Doyle Taylor is from the Aggie class of '81, Karen Taylor from '84 and Steve Ransom from '94.

When the Taylors purchased Monico, Inc. in 2004 the company's sales were flat; their goal was to turn it into a company that provided reliable, fast and simple monitoring solutions for industrial engines. Over the past seven years Monico has launched eight new product lines, hired five new employees and boasts nearly 4,000 of its specialized monitoring Gateways in the Oil & Gas, Marine, Mining and Data Center markets. A compounded annual growth rate of 21.06% brought Monico its second Aggie 100 award.

"We have every intention of making the past two years' growth a benchmark for our company," states Doyle Taylor, "We have armed ourselves with talented sales engineers and top-of-the-line programmers to make sure we can continue to offer excellent service and support along with a quality product. Our reach is expanding into Europe, Australia and South America already. And we have our sights set on more."

The Aggie 100 list is available in its entirety at www.aggie100.com, and Monico, Inc.'s product line and company information can be found at www.monicoinc.com.
